

2nd TMN mini-symposium

Super-resolution and advanced microscopy applied to neurosciences

Save the date!
Wednesday, 31st May 2023 (morning)

9:00-9:45 am

Christophe Leterrier

INP, Aix-Marseille University, France
The functional nano-architecture of axonal actin

9:50-10:35 am

Mathieu Ducros

Bordeaux Imaging Center, France
Lattice Light-Sheet Microscopy applied to neuroscience research

Coffee break

11:00-11:45 am

Yannick Schwab

EMBL, Heidelberg, Germany
Precise targeting for volume electron microscopy, a multimodal approach

11:50 am-12:35

Pierre Hener

INCI Institute, Strasbourg, France
STED microscopy in Strasbourg: presentation of the confocal microscope Leica Stellaris 8 STED from the “in vitro” imaging platform

Location: IGBMC, 1 rue Laurent Fries, Illkirch-Graffenstaden (Auditorium)

Upcoming TMN mini-symposiums
iPSC-Organoids & Genetics in human disorders
